

Small

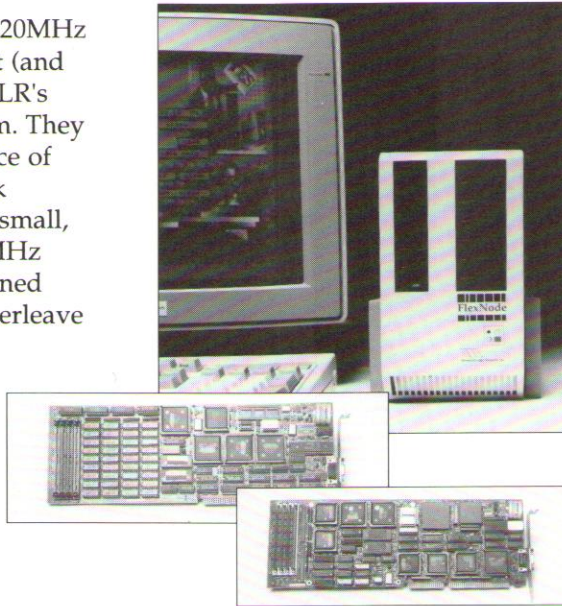

Miracle

Small.

The biggest word in 20MHz performance.

The FlexNode 286 and 386 20MHz workstations are the newest (and the smallest) members of ALR's high performance Flex Team. They complement the performance of the ALR FlexCache network server. FlexNodes are very small, but extremely powerful, 20MHz desktop workstations designed with 0-wait-state, paged interleave caching memory. The FlexNode 286/386 series use the ALR dual bus architecture, 80287/80387 coprocessor and high performance disk controller.

FlexNode with 50MB hard disk, select 386 or 286 modular CPU card.

The FlexNode 286 and 386 features:

plugable CPU cards and flexible modular design for easy service

○
paged interleave cache memory eliminates wait states 75% of the time by accessing frequently used data of 0-wait-state, eliminating the need for the CPU to address main memory with multiple wait states.

○
dual bus architecture provides a wide open, high-speed data channel for the CPU and RAM

3-1/2" 1.44-MB floppy disk drive PS/2-compatible; allows more data storage per floppy

○
4.5" x 15" foot print, the smallest in the industry (68% smaller than the PS/2 M50)

FlexNode Specifications

FlexNode 286

Model 210

80286 CPU, 20-MHz processor clock, 80287 support, 3.5" PS/2-compatible, 1.44-MB floppy disk drive, 4-slot backplane with serial port and floppy disk controller 101 key enhanced keyboard 4.5"W x 7"H x 15"D

Suggested List Price: \$1990.00

Model 230

same as Model 210 with 30MB hard disk drive and controller.

Suggested List Price: \$2549.00

Model 250

same as Model 210 with 50MB hard disk drive and controller.

Suggested List Price: \$2990.00

FlexNode 386

Model 310

1-MB expandable to 13-MB, 80386 CPU, 20-MHz processor clock, 80387 support, 3.5" PS/2-compatible, 1.44-MB floppy disk drive, 4-slot backplane with serial port and floppy disk controller 101 key enhanced keyboard 4.5"W x 7"H x 15"D

Suggested List Price: \$3490.00

Model 330

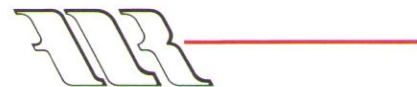

same as Model 310 with 30MB hard disk drive and controller.

Suggested List Price: \$3990.00

Model 350

same as Model 310 with 50MB hard disk drive and controller.

Suggested List Price: \$4449.00
