NEW SYSTEMS

2 NEW SERVICES!

- On-Site Service
- Product Exchange Program

See page 2 for details.

Power, Speed,

Exchange Program

We've recently made arrangements with Federal Express® Corporation to better service your computer needs. Should you encounter a problem affecting the service or operation of your system (CPU, monitor, or keyboard) within the first 30-days, call our Customer Support Department toll free at 800-999-9901. They'll work with you to determine the cause, and within 48 hours you will have the replacement via Federal Express delivery service. Along with the replacement, you'll receive a prepaid Federal Express mailing label to return the old part to us—*all at your convenience and at our expense.*
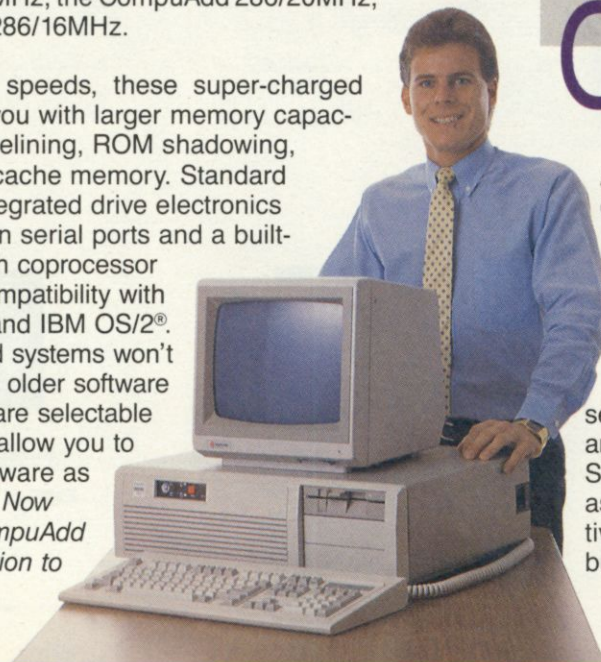

4 New Systems!

Never enough hours in the day; never enough days in the week? Introducing four new additions to our esteemed line of personal computers designed to see you out the door by five.

You shouldn't have to sit tapping your fingers because your old computer can't keep pace with your new software. Boost productivity with a system engineered for fast performance: the CompuAdd 386/25MHz, the CompuAdd 386/20MHz, the CompuAdd 286/20MHz, or the CompuAdd 286/16MHz.

Beside breakneck speeds, these super-charged machines provide you with larger memory capacities, instruction pipelining, ROM shadowing, and interleaved or cache memory. Standard features include integrated drive electronics interface, two built-in serial ports and a built-in parallel port, math coprocessor support, and full compatibility with MS-DOS®, Xenix®, and IBM OS/2®. And our accelerated systems won't have you sacrificing older software favorites. The software selectable processing speeds allow you to run yesterday's software as well as tomorrow's. *Now more than ever, CompuAdd has the speed solution to your computing challenge.*

On-Site Service
MAINTENANCE CONTRACTS

As part of our commitment to total customer satisfaction, we are announcing two new optional service programs that safeguard your systems from costly extended down time. The ON-SITE and CARRY-IN programs, available at most locations nationwide, supplement our standard service program. Of course, most calls are easily handled by our expert Technical Support staff, but should you need on-site assistance, a field service representative can be at your office by the next business day.

Call your sales representative for specific details.

and Performance

At CompuAdd, we're always looking for better ways to serve you. That's why we're:

- Introducing four new powerful systems to meet your growing needs for speed and performance
- Developing two new maintenance programs to see that your computer runs smoothly
- Staffing our sales department with professionals able to assist you in making the right selection
- Providing toll-free customer support with expert advice when you need it most

▶ **Look** for substantial savings on the most popular computer products available
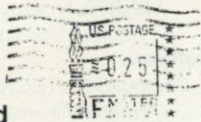

Phone Orders

Fill out the order form to plan your purchases, then call **800-627-1967** between 8 a.m. – 9 p.m. Monday through Friday, or 9 a.m. – 5 p.m. Saturday CST.

Mail Orders

Complete the order form on page 17 and mail it to: **CompuAdd P.O. Box 200777 Austin, Texas 78720-0777** Be sure to include your name, address, key code number from the back of the catalog, and method of payment. C.O.D. orders (minimum $50) must be paid with cash or by money order.

Purchase Orders

We accept purchase orders on a net terms basis with approved credit and a minimum initial purchase of $500. When filling out your purchase order, be sure to include the product part numbers, the key code number from the back of the catalog, and our invoice number (if you phoned in the order). Confirmation copies of phoned-in purchase orders are not necessary.

CONTENTS

Video Options

Monochrome Monographics Video Option Package
Standard equipment on all our starter kits, it includes a monochrome monitor with a 12" screen. The 80-character amber display offers high contrast and high resolution. The monochrome graphics card provides graphics displays of 720 columns by 348 addressable dots. It includes a parallel port.
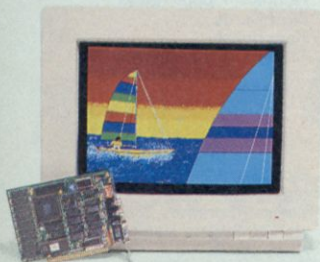

Enhanced Graphics Adapter (EGA) Video Option Package
Upgrade your kit with an EGA monitor with industry standard 14" tube size (13" diagonal) screen and .31mm dot pitch. The EGA video card has a 640x480 graphics mode and displays 16 out of a possible 64 colors at a time.

Video Graphics Array (VGA) Video Option Package
Gives you the finest color graphics technology. Includes a color VGA analog monitor with 14" diagonal screen and a .31mm dot pitch. The VGA video card supports high-resolution graphics (of up to 640x480) and displays 16 out of a possible 256 colors at a time.

Career Starter Kit™

The CompuAdd Turbo/10 PC/XT®-compatible computer:
- 8088 processor providing 10MHz or 4.77MHz switchable system speeds
- 640KB RAM
- 360KB floppy drive
- Floppy drive controller
- Eight expansion slots
- Math coprocessor socket
- 150-watt power supply
- Choice of AT-style, 5151, or enhanced 101-key keyboard

63717 - **$929**

Monitor
Monochrome Monographics Video Package, or enhance your system with EGA or VGA video. See chart.
Hard Drive
Optional hard drive. See chart.
Printer
Star Micronics NX-1000™
- 120cps draft, 30cps near letter quality
- Multiple type styles, nine-pin print head
- Tractor/friction paper feed
Software
- CompuAdd INTEGRATOR
  - Program/file managers, cardfile database, calendar, calculator, text editor, and PC-FullBak™
- CompuAdd MS-DOS® and GW Basic
Accessories
- 200 sheets of continuous form paper
- Printer cable and ten blank floppies

Professional Starter Kit™

The CompuAdd 286/12 AT®-compatible computer:
- 80286 processor providing 12MHz or 6MHz switchable system speeds
- 512KB RAM expandable to 1MB.
- 1.2MB floppy drive
- Dual floppy/hard drive controller
- Eight expansion slots
- Math coprocessor socket
- Clock/calendar with battery backup
- 200-watt power supply
- Choice of AT-style, 5151, or enhanced 101-key keyboard

63750 - **$1769**

Monitor
Monochrome Monographics Video Package, or enhance your system with EGA or VGA video. See chart.

NEW! CompuAdd 386/25

- 80386-25 processor running at 25MHz or 8MHz software-selectable system speeds
- 0 wait state cache memory
- 32-bit high speed RAM board with 1MB RAM (expands to 16MB)
- System and option ROM shadowing
- ROM-based setup
- CompuAdd INTEGRATOR productivity software package
- Choice of 5.25" 1.2MB or 3.5" 1.44MB floppy drive
- Dual floppy/hard drive controller
- Two serial ports and a parallel port built-in
- Six 16-bit and one 8-bit expansion slots
- Math coprocessor support for 80387, Weitek, or both
- Integrated Drive Electronics (IDE) fixed-disk drive interface
- Enhanced 101-key key board
- 29.4 on Norton's SI Benchmark 4.0 test

63600 - **$2895**

NEW! CompuAdd 386/20

- 80386-20 processor running at 20MHz or 8MHz software-selectable system speeds
- 0 wait state cache memory
- 32-bit high speed RAM board with 1MB RAM (expands to 16MB)
- System and option ROM shadowing
- ROM-based setup
- CompuAdd INTEGRATOR productivity software package
- Choice of 5.25" 1.2MB or 3.5" 1.44MB floppy drive
- Dual floppy/hard drive controller
- Two serial ports and a parallel port built-in
- Six 16-bit and one 8-bit expansion slots
- Math coprocessor support for 80387, Weitek, or both
- Integrated Drive Electronics (IDE) fixed-disk drive interface
- Enhanced 101-key key board
- 23.4 on Norton's SI Benchmark 4.0 test

63500 - **$2295**

CompuAdd 386/16

- 80386-16 processor running at 16MHz, 8MHz, 6MHz, 4.77MHz software-selectable system speeds
- 0 wait state (page-mode memory)
- 1MB RAM expandable to 4MB (option to10MB RAM)
- CompuAdd INTEGRATOR productivity software package
- Choice of 5.25" 1.2MB or 3.5" 1.44MB floppy drive
- Dual floppy/hard drive controller
- Five 16-bit and two 8-bit expansion slots
- 80287 math coprocessor support
- Choice of enhanced 101-key, AT-style, or 5151 keyboard
- 17.6 on Norton's SI Benchmark 4.0 test

63254 - **$1895**

FREE! Get the new INTEGRATOR productivity software package when you purchase a CompuAdd base system.

Completely menu-driven, INTEGRATOR makes your new computer more user friendly with powerful tools that simplify your everyday operations:

- The program and file managers eliminate the need for you to be fluent in computerese for MS-DOS interactions.
- The cardfile database, appointment calendar, printing calculator, and full-featured text editor assist you in accomplishing daily business tasks.
- The award-winning PC-FullBak utility software handles your hard-drive maintenance and safeguards valuable data.

Your special bonus from the price/performance leader!

Monitors Optional

The CompuAdd 386 Series

Dedicated to rapid response, our CompuAdd 386 series maximizes the powerful speed and performance of the industry-standard 80386 microprocessor. With software-selectable speeds and expansion capabilities up to 16MB of memory, our new 386/25MHz and 386/20MHz are designed for MS-DOS®, OS/2®, and Xenix® applications. The cache memory, improved data transfer, and ROM shadowing option deliver increased speed to dramatically boost your productivity.

386/25 System	MGA	EGA	VGA

Monitors Optional

The CompuAdd 286 Series

Attain new levels of speed and productivity with our CompuAdd 286 series. These 80286 microprocessor-based machines are built for performance. The 20MHz and 16MHz systems are capable of satisfying software speed and power requirements of MS-DOS, OS/2 and Xenix. They include such contemporary technological enhancements as improved data transfer, ROM shadowing, instruction pipelining, and larger memory expansion capacities.

Different Points of View

Upgrade your system with our quality video combos in monographics, color graphics, enhanced graphics, or video graphics array.

Flat Screen Monographics Combo
Includes Samsung 12" flat screen monitor with tilt and swivel base, and monographics video card.
51700 - **$139**

Color Graphics Adapter (CGA) Combo
Includes 13" IBM-compatible color monitor and color graphics card. *51701* - **$289**

Enhanced Graphics Adapter (EGA) Combo
Includes a 14" industry-standard tube with 13" diagonal EGA monitor and CompuAdd EGA-480 card. *51702* - **$489**

Monochrome

Monochrome, amber, and black-and-white — perfect start-up video for comfortable viewing and low price.

**Samsung™ 12" monitor, flat** screen amber monochrome with high-contrast, non-glare screen, has high resolution of up to 720x348, 80-character display, and tilt/swivel base.
51001 - **$95**

51011

AMDEK

Amdek® 410 monitor with amber display. The 12" diagonal non-glare screen provides for high resolution of up to 720x350. *51011* - **$159**
Amdek 432W monitor with flat screen amber display. Fully compatible with the IBM® Personal System/2™ VGA standards, this 14" diagonal monitor has high resolutions of up to 640x480 in graphics mode and 720x400 in text mode. Built-in tilt/swivel base. *51077* - **$220**

48301

Monographics card is a Hercules™ compatible mono-chrome graphics card with high resolution up to 720x348. Includes parallel port.
48301 - **$49**

Hercules™ monochrome graphics card plus, mono-chrome display card with high-resolution graphics (up to 720x348) and text display. Includes parallel port.
48350 - **$179**

Graphics Card Plus

Hercules™

48350

Color

Color your world with one of these fine RGB monitors.

IBM-compatible color monitor has a 14" tube size with 13" diagonal screen. The .39mm dot pitch provides for high resolution up to 640x240. Capable of 16 colors at 22KHz and 64 colors at 15.75 KHz. *51100* - **$239**

51100

Color graphics card is a high-resolution color graphics adapter that operates in both color and composite mode. Includes a parallel port.
48302 - **$49**

48302

Hercules color graphics card has color graphics and printer port for the AT/PC on a space-saving half-size card.
48351 - **$149**

EGA

EGA ... the standard for high-resolution color.

IBM-compatible 14" EGA monitor offers the best value in an enhanced color monitor. Its industry standard 14" tube with 13" diagonal screen offers .31mm dot pitch and high resolution up to 640x350.
51201 - **$349**

51201

NEC Multisync II® monitor adjusts to any horizontal syn-chronization frequency between 15.5KHz and 35KHz. It supports TTL and analog inputs and resolutions of up to 800x600. The 14" display has a 30MHz bandwidth and .31mm dot pitch.
51202 - **$679**
CompuAdd EGA-480 card is an IBM/EGA-compatible card with 256KB display memory, 16 out of 64 color capability, and automatic configuration.
*48306* - **$179**

Ultimate EGA Combo
Includes the NEC Multisync II monitor and a Video-7 Vega Deluxe EGA card. *51703* - **$869**

Video Graphics Array
Includes 14" analog color monitor and a CompuAdd VGA card. *51704* - **$695**
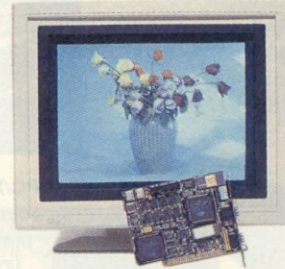

Zenith VGA Combo
Includes Zenith 14" analog flat-screen color monitor with tilt and swivel base and a Video-7 Vega Deluxe VGA card. *51705* - **$995**

VGA

Enhance your system with any of these fine VGA monitors and cards for spectacular color and clarity.

48304

Paradise EGA-480 card is an IBM/EGA-compatible card with 256KB display memory and 16 out of 64 color capability. The EGA-480 automatically configures itself to a resolution of 640x350 or 640x480, depending on your monitor. *48304* - **$229**

48376

Video-7® Vega Deluxe™ EGA card supports EGA, CGA, and monographics displays. Capable of high resolution up to 640x380 (752x410 with NEC MultiSync II or other compatible monitors). *48376* - **$235**

51075

Zenith 14" Color VGA flat screen monitor with tilt and swivel base. Provides sharp, clear images and high resolutions of up to 640x480. Displays all graphics modes at 31.5KHz horizontal scan frequency, with 25MHz bandwidth and .31mm dot pitch. Uses flat tension mask technology for remarkable intensity and hue. *51075* - **$759**

51076

Color VGA 14" analog monitor displays a spectrum of colors as infinite as your imagination. The 14" display has a .31mm dot pitch and 31.5KHz horizontal scan frequency. *51076* - **$515**

48331

CompuAdd VGA card enhances your monitor with high-resolution (up to 800x600) graphics, 16 out of 256 color capability, and IBM VGA, CGA, and Hercules Monochrome graphics. *48331* - **$220**

48330

Paradise VGA Plus™ card provides increased performance for your IBM VGA and PS/2 compatibles, attains high-resolution (up to 800x600) graphics, displays 256 colors, 16 at a time, and supports IBM VGA, CGA, and Hercules™ Monochrome Graphics. *48330* - **$299**

48377

Video-7 Vega VGA card, compatible with all existing IBM graphic/text standards, has resolutions of 640x480 and 800x600 with 16 out of 64 color capability. Used with an analog monitor, it has 640x480 resolution with 16 out of 262,144 color capability or 320x200 with 256/262,144. Supports popular software packages. *48377* - **$279**

Be sure to include your name, address, key code number from the back of the catalog, and method of payment. C.O.D orders (minimum $50) must be paid with cash or by money order.

Purchase Orders
We accept purchase orders on a net terms basis with approved credit and a minimum initial purchase of $500. When filling out your purchase order, be sure to include the product part numbers, the key code number from the back of the catalog, and our invoice number (if you phoned in the order). Confirmation copies of phoned-in purchase orders are not necessary.

Shipping Information
Please add 2% of your order to cover shipping and handling costs (**minimum $3**). Military addresses (FPO/APO), add 5% (**minimum $5**). Residents in Alaska, Hawaii, and outside the United States, call for information on shipping and handling costs.

Receive your order in record time via Federal Express delivery service. Add $4.95 to your final cost and we'll rush your order to you with our new two-day ship time. Some weight restrictions apply, no C.O.D. orders please. Ask your sales representative.

Check your order carefully. Claims for incomplete orders must be submitted within ten days. If there is a question about your order, contact us immediately. If your order has been damaged in transit, contact the nearest UPS office within ten days and file a claim. Keep the original shipping carton for inspection by UPS. The carrier is responsible for damage incurred during shipment.

Warranty Information
CompuAdd provides a limited one-year warranty on most products. For specific warranty information, please ask our sales people or write to:
**CompuAdd, P.O. Box 200777
Austin, Texas 78720-0777**.

Customer Support
CompuAdd backs every purchase with a full year of technical assistance. Just call 800-999-9901 between 8 a.m. - 7 p.m. Monday through Friday CST, for friendly advice from our technical experts.

Returns
CompuAdd offers a 30-day money-back guarantee on all hardware products. (Software is non-refundable.) We will refund the purchase price of the product. (Does not include shipping and handling costs.) All items must be shipped insurance and freight prepaid and be accompanied by a returned merchandise authorization number (RMA number) from customer support (800-999-9901). All items must be in original, like-new condition, including all packaging material and documentation. We do not accept C.O.D. returns.

International Corporate Accounts
We welcome inquiries from dealers and companies outside the United States.

Editor's Choice Oct. 1988

56374

Microline® 320/321 series maintains the sleek space-saving profile that made this series popular. Added speed, paper handling, and compatibility features make the 320/321 printers the easiest to use in their class. Prints up to 250cps in draft mode and 63cps in near letter-quality mode. Parallel interface.
Microline 320 (80 columns). *56359* - **$379**
Microline 321 (132 columns). *56360* - **$529**

The 1595 prints at 240cps in draft mode and 51cps in near letter-quality mode to quickly meet all your printing demands. Adjustable rear tractor feed and friction feed. Parallel and serial interface. (132 columns). *56374* - **$479**

56361

About Dot-Matrix Printers . . .

Printing speeds for each dot-matrix printer are given in characters per second (cps).

- **Draft mode (DM)** rapidly prints your documents. Although you sacrifice character resolution for fast results, the output is still serviceable for most in-house demands.

- **Near letter-quality mode (NLQ)** prints at a slower speed, enhancing each character's resolution. Before its second pass over a sentence, the 9-pin print head is slightly shifted vertically to fill in between the dots, producing more solid-looking characters.

- **Letter-quality mode (LQ)** produces high-resolution characters at a reduced speed. Using a 24-pin print head to achieve professional results, the characters have a smoother and more solid appearance.

Microline 390/391 series offers high-quality dot-matrix printing with enhanced graphics capability. IBM compatible, these printers reproduce graphics and text files using a 24-pin print head. The 391 handles sheets up to 14.3". They print 270cps in draft mode and 90cps in letter-quality mode. Standard push tractor with paper park feature. Parallel interface kit included.
390 Microline (80 columns). *56361* - **$570**
391 Microline (132 columns). *56362* - **$776**

Manual Switch Boxes

Multiple users can share peripherals, or a single user can use many peripherals with the flip of a switch. Numbers in parentheses reflect computers/peripherals.

25-Pin (serial or parallel):
X switch box (2/2). *39506* - **$35**
AB switch box (2/1). *39500* - **$13**
ABC switch box (3/1). *39502* - **$29**
ABCD switch box (4/1). *39504* - **$33**

36-Pin (Centronics):
X switch box (2/2). *39507* - **$35**
AB switch box (2/1). *39501* - **$29**
ABC switch box (3/1). *39503* - **$29**
ABCD switch box (4/1). *39505* - **$33**

Automatic Switch Boxes

These devices automatically queue print jobs. Available with serial or parallel DB25F connectors. Numbers in parentheses reflect computers/peripherals.

Serial auto switch box (4/1). *38952* - **$75**
Serial auto switch box (8/1). *38953* - **$99**

Parallel auto switch box (4/1). *38950* - **$79**
Parallel auto switch box (8/1). *38951* - **$99**

SOFTWARE

Spreadsheets

Quattro™ by Borland International provides increased speed for spreadsheet tasks. Save time using shortcuts to alter row/column length, paging, or create quality graphs. (384KB RAM). *60122* - **$165**

Horizontal Plus by Simon & Schuster. *60134* - **$17**
InWord™ by Funk Software (340KB RAM). *60136* - **$58**

Lotus 123® by Lotus Development continues to be the most popular analytical package. Provides spreadsheet, graphics, and database applications.
60100 - **$299** (Reg. $329)
Lotus 123 (3.5" IBM-compatible).
60103 - **$299** (Reg. $329)

Lucid 3-D by Personal Computer Support Group. *60138* - **$63**
Microsoft Excel by Microsoft (640KB RAM/MS-DOS 3.0). *60112* - **$339**
PFS: Professional Plan by Software Publishing (512KB RAM). *60115* - **$59**
VP-Planner® by Paperback is a multi-dimensional database that creates user-defined spreadsheets. Features user-custom macros and background mode for printing. (256KB RAM). *60130* - **$53**
See More 123 by Personics. *60127* - **$46**
Sideways® by Funk Software customizes your spreadsheets with nine type sizes and margin/column control. Enables you to print large files continuously by printing sideways. *58580* - **$42**
Sideways (3.5" IBM-compatible). *58700* - **$42**
Twin Advanced by Mosaic. *60128* - **$66**

Word Processing
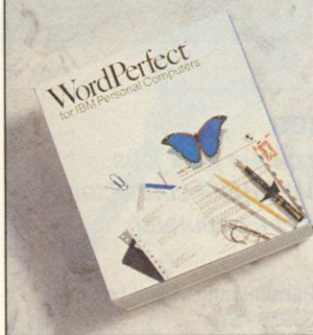

WordPerfect® by WordPerfect Corporation, offers you a powerful word processor with automatic format, split screen edit, nine-key sort, mail merge, macro capabilities, 150,000-word dictionary, thesaurus, spelling checker, and online tutorial. (384KB RAM).
60015 - **$243**
WordPerfect (3.5" IBM-compatible). *60016* - **$245**

Grammatik III™ by Reference Software polishes your documents while it improves your writing skills. End problems with split infinitives, passive voice, awkward language, and punctuation. It not only flags errors, but also offers suggestions on correcting them!
60033 - **$52**

Microsoft® Word by Microsoft (320KB RAM). *60000* - **$229**
MultiMate Advantage II™ by Ashton-Tate (320KB RAM (384KB RAM for DOS 3.2)). *60025* - **$289**
Pageview by Microsoft (512KB RAM/MS-DOS 3.0). *60059* - **$34**
PFS: Professional Write by Software Publishing is perfect for the professional who wants polished reports in minutes. Includes spelling checker, custom dictionary, thesaurus, and macros. (320KB RAM/MS-DOS 2.0 (384KB RAM for DOS 3.2)). *60020* - **$116**
Resume by North America. *60046* - **$29**
Resume Writer by Keypunch Software. (256KB RAM). *60047* - **$8**
RightWriter by Rightsoft. *60049* - **$49**
RightWriter (3.5" IBM-compatible). *60050* - **$49**
Sprint® by Borland (384KB RAM). *60008* - **$133**
Webster's New World™ Combo by Simon & Schuster (256KB RAM). *60032* - **$35**
WillMaker by Nolo Press. Not valid in Louisiana. *60054* - **$32**

Languages

Turbo Pascal® by Borland powers up your computer with the Pascal language. Includes a full-screen interactive editor, fast separate compiler, and support for device-independent graphics and macros. (384KB RAM). *58201* - **$108**

Microsoft QuickBASIC by Microsoft speeds up the programming process by eliminating the lengthy compile step. The full-screen editor aids in debugging and provides context-sensitive help. (320KB RAM/MS-DOS 2.1). *58235* - **$69**

Integrated Packages

Eight-in-One by Spinnaker (384KB RAM). *60626* - **$35**
Microsoft Works by Microsoft surpasses the competition with its sophisticated applications and simple commands. This integrated package provides you with the business essentials: word processing, spreadsheet, and communications software. (384KB RAM). *60614* - **$99**
PFS: First Choice by Software Publishing (512KB RAM). *60605* - **$95**
Symphony® by Lotus Development (384KB RAM). *60101* - **$449**
Symphony (3.5" IBM-compatible). *60104* - **$468**

Utilities

Auto Menu by Magee. *58626* - **$29**
Battery Watch by Traveling Software. *58632* - **$23**
Copy II® PC by Central Point Software (256KB RAM). *58565* - **$25**
Direct Access by Delta Tech. *58644* - **$52**
Fast Trax by Bridgeway. *58635* - **$29**
FASTBACK Plus by 5th Generation. *58556* - **$105**
FASTBACK Plus (3.5" IBM-compatible). *58557* - **$97**

Norton Utilities™ Advanced Edition by Peter Norton Computing optimizes your disk for fast access time, locates 'lost' data, and performs all those practical utilities for which Norton is famous. *58536* - **$79**

Microsoft Windows by Microsoft. *58015* - **$68**
PathMinder™ by Westlake Data manages your computer's directories and files. Maintains file security and system's log. (256KB RAM). *58598* - **$45**
Norton Utilities™ **Advanced Edition** by Peter Norton Computing. *58536* - **$79**
PC-FullBak™ by Westlake Data. *58600* - **$49**
PC Tools® **Deluxe** by Central Point Software (192KB RAM). *58566* - **$40**
Watchdog by Fischer International. *58720* - **$185**
Watchdog (3.5" IBM-compatible). *58721* - **$185**

Dollars & Sense by Monogram (256KB RAM/MS-DOS 2.1). *60805* - **$105**
Financial Calculator by Meca. *60833* - **$26**
Quicken® by Intuit makes personal and business bookkeeping a breeze. Uses optimized code to lessen the time involved in performing financial functions. (256KB RAM). *60801* -**$30**
Smart Money™ by Sierra. *60839* - **$46**
Stock Portfolio by Publish International. *60841* - **$12**
Timeslips®III by North Edge Software gives you time and billing information for accurate accounting of billable hours and expenses. Perfect for service-oriented businesses. *60802* - **$117**

Databases

dBASE IV™ by Ashton-Tate includes fully-relational database, dBase programming language, built-in networking system, and day-to-day management system. (256KB RAM).
60642 - **$485**

DataPerfect by WordPerfect Corp. (192KB RAM/MS-DOS 2.1). *60623* - **$307**
Paradox by Ansa Software (512KB RAM). *60613* - **$469**
PFS: Professional File by Software Publishing. (256KB RAM). *60606* - **$145**

Q&A™ by Symantec answers your data management needs with a powerful database that is easy to set up, a report generator that offers advanced options, and a word processor that includes a spelling checker. (512KB RAM).
60615 - **$199**

Finance
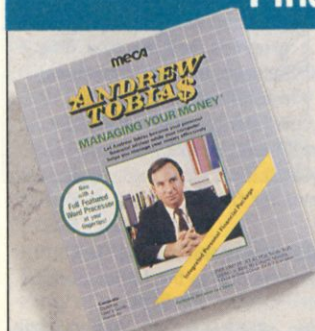

Managing Your Money® by Meca includes a full complement of personal finance applications. It even prepares your accounts payable and receivable, invoices, mailing labels — the works! (256KB RAM). *60800* - **$129**
Managing Your Money (3.5" IBM-compatible).
60804 - **$127**

DAC-Easy™ **Accounting** by DAC Software is perfect for small to medium-sized businesses. Along with general ledger, receivable, and payable functions, it handles your inventory, ordering, and forecasting tasks. (256KB RAM/MS-DOS 2.1). *60816* - **$59**
DAC-Easy Light™ by DAC Software installs quickly to furnish the non-accountant with a personal finance package. (256KB MS DOS 2.1)
60817 - **$42**

Publishers

The Print Shop® by Broderbund catches your audience's attention with dazzling designs and graphics. You can print everything from banners to bulletins in just minutes. Eight type fonts and dozens of border designs, background patterns, and graphics from which to choose.
61050 - **$38**
The Print Shop Companion™ by Broderbund unites your Print Shop program with a flexible clip art collection for a wider variety of interesting printed materials.
59806 - **$30**

Print Shop Graphics Library I by Broderbund. *59481* - **$20**
Print Shop Graphics Library II by Broderbund. *59482* - **$20**
Print Shop Graphics Library Holiday by Broderbund. *59480* - **$20**
Print Shop School Edition by Broderbund. *59483* - **$42**
Byline by Ashton-Tate (384KB RAM/MS-DOS 2.1). *59451* - **$198**
Calendar Creator+ by Channel Mark. *59454* - **$29**
Certificate Maker™ by Springboard (256KB RAM/MS-DOS 2.1). *61040* - **$23**
NewsMaster II™ by Unison World combines text and graphics for eye-catching results. Keyboard-selectable menus. (512KB RAM/MS-DOS 2.1). *59427* - **$49**
PageMaker® by Aldus Corporation. *59400* - **$577**

PFS: First Publisher by Software Publishing makes desktop publishing affordable. Easy to learn, it includes stylesheets and over 60 fonts. (512KB RAM). *59416* - **$76**

PFS: First Publisher Art Gallery. *59417* - **$75**
PFS: First Publisher Business Symbols. *59476* - **$23**
