Our diskettes are burnished to produce a smooth surface and to eliminate irregularities on the surface. This helps minimize head wear, at the same time optimizing the recording of data. Micronized lubricants also reduce the wear and friction on both the diskette and drive head.

Inside of the sleeve or jacket is a liner. This liner is a dust free material that removes dust, lint, smoke and other contaminants that can cause data loss and diskette wear. This liner helps to minimize friction, binding and shedding as the disk rotates in its jacket, thus, enhancing the read/write process. Our diskettes offer a 75% clipping level, with a guaranteed 50% minimum clipping level. This is 187% of the level required by the American National Standards Institute (ANSI).

These are stress release notches. They reduce damage to the disk and jacket from insertion into the disk drive.

Write-protect/enable notches are designed to provide you with secure storage of your important data without accidental loss.

The diskette jacket is a P.V.C. material designed to provide a heat-resistant cover for the diskette. This jacket protects the disk from the handling and contaminants it experiences every day. These jackets are tested for flexibility, opacity, warping, squareness and temperature resistance.

The reinforced hub ring prolongs the life of the diskette by resisting dents, tears and warping. This ensures accurate diskette/drive alignment.

Disk Drive Preventive Maintenance

Complete Pengo 5.25" Head Cleaning Kit

\$1.99
Per Kit

(Shipping for all Cleaning Kits 25¢ each)

Complete 3M 5.25" Head Cleaning Kit

\$5.95
Per Kit

Protect Your Valuable Data

Regular use of your new cleaning kit helps:

- Avoid data loss, service calls, increase productivity.
- Safely remove harmful static and debris.
- Prevent accelerated wear and deterioration of disks.

How often should you clean the drive heads?

- Weekly or every 40 hours of cumulative drive use.
- Use more frequently if used near dust, dirt, or smoking environment; or when read/write errors are encountered.
- *Read/write heads are cleaned in just 30 seconds.*

Pengo
5.25" HEAD
CLEANING KIT

• 9 Cleanings - **\$1.99**
• 22¢ Per Cleaning

Pengo
3.5" HEAD
CLEANING KIT

• 9 Cleanings - **\$2.99**
• 33¢ Per Cleaning

As Easy As 1-2-3

- 1) Dispense moderate amount of cleaning solution onto lint-free, porous cleaning material through the large cut out in the jacket.
- 2) Insert cleaning diskette into drive. Activate drive for 30 seconds.
- 3) After cleaning remove diskette, check off the usage on label. After 15 uses, if the diskette becomes discolored with contamination, discard and use new cleaning diskette.

3M
5.25" HEAD
CLEANING KIT

• 30 Cleanings - **\$12.95**
• 43¢ Per Cleaning

• 10 Cleanings - **\$5.95**
• 60¢ Per Cleaning

3M
3.5" HEAD
CLEANING KIT

HELPFUL HINTS

- **First and Foremost- Never roll the platen backwards when labels are in the printer**
- Use continuous labels with tractor feed printers.
- When using the tractor feed, turn the friction feed off.
- If the printer stops or the labels move out of alignment, break off the "page" behind the platen (ie. before it goes into the printer) and roll the remainder out forward- NEVER roll labels out backwards or they will (Murphy's Law) peel off the sheet and jam inside of your printer. After removing properly, reinstall the labels.
- Align labels straight when installing on tractor feed.
- **Again, Never roll the platen backwards when labels are in the printer.**

HELPFUL HINTS

Disk failure can cost you money, time and unnecessary aggravation. Listed below are a few helpful hints to prevent unnecessary data loss.

- Protect your disk from smoke, dust, dirt, liquids, etc. by storing in disk cases.
- Keep disks away from electronic appliances, wires & magnetic paper clip holders.
- Use felt tip pens to write on labels instead of ball point pens or pencils.
- Do not bend or crease the diskette.
- Do not expose to heat (ie. from light coming in windows, car trunks, packages left on doorsteps etc.) - A safe rule of thumb is: if it is too hot for you, it may be too hot for the diskette.
- Do not put fingerprints on the diskette itself (ie. through the window on the diskette casing).

"The higher the QUALITY of the PRODUCT the more MONEY and TIME YOU SAVE for other things". - MEI/Micro Center

Helpful Hints

- For the highest performance of your printer ribbons, check your printer's owner manual for complete instructions on installation.
- Many ribbons have safety clips installed on the ribbon for protection during shipping & storage. Check your ribbons to make sure the clip is removed (if it has one) before installation. Failure to remove the clip will not allow the ribbon to advance, causing light printing, jamming or even breakage of the ribbon.
- Before installation, tighten the ribbon by turning the knob on the casing in the direction of the arrow.
- Ribbons should be stored at a normal room temperature, away from heat, light & humidity. Depending on the conditions, ribbons have an average shelf life of up to 2 years.

Surge Suppressors

Act Now! Don't Wait Until It's Too Late!

#PP102
\$11.95
 each

#PP102

6-Outlet Surge Protection

(Shipping & Handling For All Surge Suppressors - \$1.00 ea.)

Standard Features on All Three Surge Suppressors

- U.L. Listed & Approved
- 125 Volts-15 Amp circuit breaker with reset feature to safely shut off the surge suppressor and devices should an overload or short circuit occur
- 6 Switch-controlled power outlets with surge and spike protection
- 6-foot, heavy duty line cord with molded plug
- Steel alloy construction with protective baked enamel finish
- Master switch with built-in light indicator.

POWER SURGES

What Are They?

Spikes and surges are fluctuations in your electric current that rise well above the 120V level that operates most of your electrical devices. Surges generally last longer than spikes, but, both usually occur so fast that you do not even notice them. Since most electronic equipment is designed to run on 120V, a spike or surge can severely damage the device, especially over time - just like too much air in a tire. BLOWOUT! EMI/RFI Noise Interference - EMI noise is electro-magnetic interference and RFI noise is radio frequency interference. EMI/RFI noise can be transmitted to your power line by things such as nearby radio and TV stations, loose electrical connections, fluorescent lights etc.

Who Gets Them?

Anyone who plugs his or her device into an electric outlet in a home, office, store, factory, school etc. is prone to having them.

When Do You Get Them?

Depending on your location and the different types of power consumption in your area, you may experience an average of two to five surges a day. Over time, these can add up, causing expensive damage to the device.

Where Do They Come From?

Surges and spikes can come from: power companies switching their sources, your neighbors consumption, air conditioners, elevators, electrical storms etc. They can come from basically anything that can effect the electric current in your line.

How Do You Prevent Them?

A surge suppressor is a very safe and cost effective way to provide "insurance" that your computer or any other electrical device is protected from these damaging spikes and surges. A surge protector will absorb and divert any excess electricity out the ground line and away from the sensitive device. The investment you make in any one of our quality surge suppressors can save you hundreds or even thousands of dollars in equipment repair, loss of data, not to mention the aggravation involved.

Full Protection For EMI/RFI/Noise/Surge Protection

#PP104

#PP104
\$19.95
 each

The PP104 has all the standard features and meets all the specifications listed **and it also includes EMI/RFI/Noise Suppression.**

Full Protection For EMI/RFI/Noise/Surge & Modem Protection

#PP106

#PP106
\$24.95
 each

The PP106 has all the standard features and meets all the specifications listed **and it also includes EMI/RFI/Noise & Modem Suppression.**

Specifications

Electrical Rating	125 VAC, 15 Amps, (1875 Watts)
Outlets	6
Max. Surge Voltage	6KV
Max. Surge Dissipation	50 Joules
Max. Spike Current	4500 Amps, 25°C
Max. Clamping Ratio	1.2:1
Clamping Voltage	175 Volts
Clamping Response Time	Less than 1 nanoseconds
Temperature Range	-40°C to +80°C

(Shipping & Handling For All Surge Suppressors \$1.00 ea.)

Customer Order Information

MEI/Micro Center Unconditional Guarantee

Your satisfaction is unconditionally guaranteed or your money back. If for any reason you are not satisfied with any product purchased from us, we want you to return it. We will be glad to exchange the product or give your money back - **NO QUESTIONS ASKED!**

Ordering Information

When ordering by mail, to ensure the most accurate and quickest delivery of your order, please include the quantity, complete item description, size, color, format or any other pertinent information for each item you wish to order. We accept personal checks, money orders, VISA & MasterCard. In order to offer lowest prices, all purchase orders must be accompanied with payment. Please include card number, and expiration date for charge card orders. For faster service, order by phone from 8AM - 11PM EST M-F, 9AM - 7PM Sat. with our toll-free number, **1-800-634-3478**. Thank You.

Shipping Information

Prices listed do not include order processing or delivery charges. For each order, add \$3.00 for order processing, packaging and handling, plus the shipping charge for each item.

- Domestic shipments are made via U.P.S. Ground when possible. Allow at least five business days after shipment for your delivery. (Boxes of paper cannot be shipped U.S. mail.)
- Shipments to Canada, APOs, FPOs - add \$4.00 per order.
- Shipments to Alaska, Hawaii, Virgin Islands and Puerto Rico - please call Customer Service for shipping charges (toll-free 1-800-634-3478).
- We cannot ship orders outside of the United States and Canada.

Shipping & Handling Chart

For each order, add \$3.00 for order processing, packaging and handling, plus the following shipping charge for each item.

- Bulk 5.25" Disks - \$1 per 100 disks
- Bulk 5.25" High Density Disks - 50¢ per 50 Disks
- Bulk 3.5" disks - 50¢ per 25 disks
- Disk Cases (5.25" & 3.5") - 75¢ each
- Color Disks (5.25" & 3.5") - 30¢ per pack of 10
- Boxed Disks (5.25" & 3.5") - 30¢ per box
- Sleeves (paper & tyvek) - 20¢ per 100
- Disk Notcher - 20¢ each
- Universal Printer Stand - 75¢ each
- Acrylic Printer Stands - \$1 each
- CPU Stands - 75¢ each
- User Labels - no shipping charge
- Write Protect Tabs - no shipping charge
- Disk Mailers - \$2 per pack of 50
- Head Cleaner Kits - 25¢ per kit
- Surge Suppressors - \$1 each
- Mailing Labels - \$1.50 per box
- Paper 2500 Sheet Box - \$4.00 per box
- Ribbons - \$1.50 per 6 pack

Backordered Products

You will be promptly notified in the event we cannot ship your order and you'll be given an opportunity to wait or to cancel your order. In no case will your credit card be charged until the product is ready to be shipped. If you have questions about the status of your order, please call customer service at 1-800-634-3478. Items ordered together may be shipped in multiple boxes. If your package arrives without all of the products, please check the packing list to see if the items missing are on backorder (the packing list will indicate this). If the item(s) are not on backorder, the remaining package(s) will arrive within the next few days.

Damaged Shipments

If you receive a package that has been damaged en route to you by U.P.S., in order to resolve the situation as quickly as possible, please call the local U.P.S. office immediately (request a representative to pick up the damaged goods). Securely repack the merchandise, being sure to include the white packing slip that was included with your order and attach to it a note explaining the situation. U.P.S. will pick up the package and notify us so that we can promptly ship a replacement to you.

Returns and Exchanges

If you are returning an item, please complete the back side of the packing slip enclosed with your order, indicating whether you wish a replacement or credit. Place this in the carton, securely wrap the package and return it prepaid and insured to our Customer Service Department, 1100 Steelwood Road, Columbus, Ohio 43212. Thank You.

Duplicate Mailings

If you receive more copies of our mailing than you prefer, please tear off that portion of the card with the address label and send it to our Customer Service Department at 1100 Steelwood Road, Columbus, Ohio 43212 (or call us toll-free at 1-800-634-3478) to remove the duplicate name.
