

The Xerox Documenter System

Xerox Documenter System

The Xerox Documenter System combines two new and powerful Xerox products that can give your important business documents and presentations the credibility, persuasiveness and visual impact of the finest printed publications.

The Xerox Documenter combines the Xerox 6085 Professional Computer System and the Xerox 4045 Laser Copier/Printer. The 6085 PCS, a high-performance workstation, is designed to support a wide variety of applications required by the business professional. With its ViewPoint multitasking operating environment and integrated applications software, it packs the speed, power, and versatility of a full-scale business computer system into a desktop package with advanced features for convenience and ease of use.

The high-resolution Xerox 4045 Laser CP, containing its own built-in microprocessor, is a high-quality text printer capable of generating and printing text in a wide variety of type styles and sizes. It is also a graphics device that can print graphs, charts, forms and illustrations exactly as they appear on the 6085 workstation screen.

Key Features

- Full-function multitasking workstation with 15-inch or 19-inch display, disk storage, diskette drive and integrated ViewPoint windowing software environment supporting a wide range of document creation and information processing capabilities:
 - Document editing/word processing, automatic graphing/charting of tabular data and multilingual type fonts
 - Optional software for free-hand drawing, math/equation formatting and spreadsheet calculation/manipulation
- Optional IBM PC emulation coprocessor running IBM PC or PC/XT software packages. Simultaneous windowing and execution of 6085 and PC environments.
- Microprocessor-controlled xerographic 300 x 300 spots-per-inch, 10 page-per-minute printer with 250-sheet input paper cassette for 8½ x 11 or 8½ x 14-inch sheets, 100-sheet output tray and optional copier, sequencer and envelope cassette tray.
- Bit-map graphics printing
- Optional Xerox Network System configuration for accessing network services (electronic mail, filing, communications, remote printing).
- Full range of disk storage, display and copier option alternatives

Documenter Configuration	Disk Capacity (Mbytes)	Display Size	Copier Option	PC Option
10A	10	15-inch	No	No
10B	10	19-inch	Yes	No
20A	20	15-inch	No	No
20B	20	19-inch	Yes	No
20C	20	15-inch	No	Yes
20D	20	19-inch	Yes	Yes
40C	40	15-inch	No	Yes
40D	40	19-inch	Yes	Yes
80D	80	19-inch	Yes	Yes

Physical Specifications

	Height	Width	Depth	Weight
15-inch Display	8.7 in.	11 in.	15 in.	30 lbs.
19-inch Display	11.6 in.	15.2 in.	16 in.	38 lbs.
Processor cabinet	21.5 in.	9.5 in.	12.5 in.	50 lbs.
Printer	10.5 in.	27.5 in.	21.5 in.	145 lbs.
Diskette drive	2 in.	9.5 in.	12.5 in.	6 lbs.

Environmental Requirements

- Temperature: 60°–90°F (15°–32°C)
- Relative humidity: 15%–65%
- Heat dissipation (BTU/hr):

Processor—min. config. less display	853
—max. config. less display	1462
Display —15-inch	205
—19-inch	341
Diskette drive	68
Printer —standby	683
—printing	3413

Electrical Requirements

AC power is obtained from grounded wall sockets. Voltage required at the outlets is 103 to 127 VAC at 60 Hz. Two outlets are required, one for the processor and display and one for the printer. The display receives power from the processor by using an outlet on the back of the processor cabinet. Current required is 4.13 amps for 6085 supporting maximum configuration and 15-inch display, 15 amps for printer.
