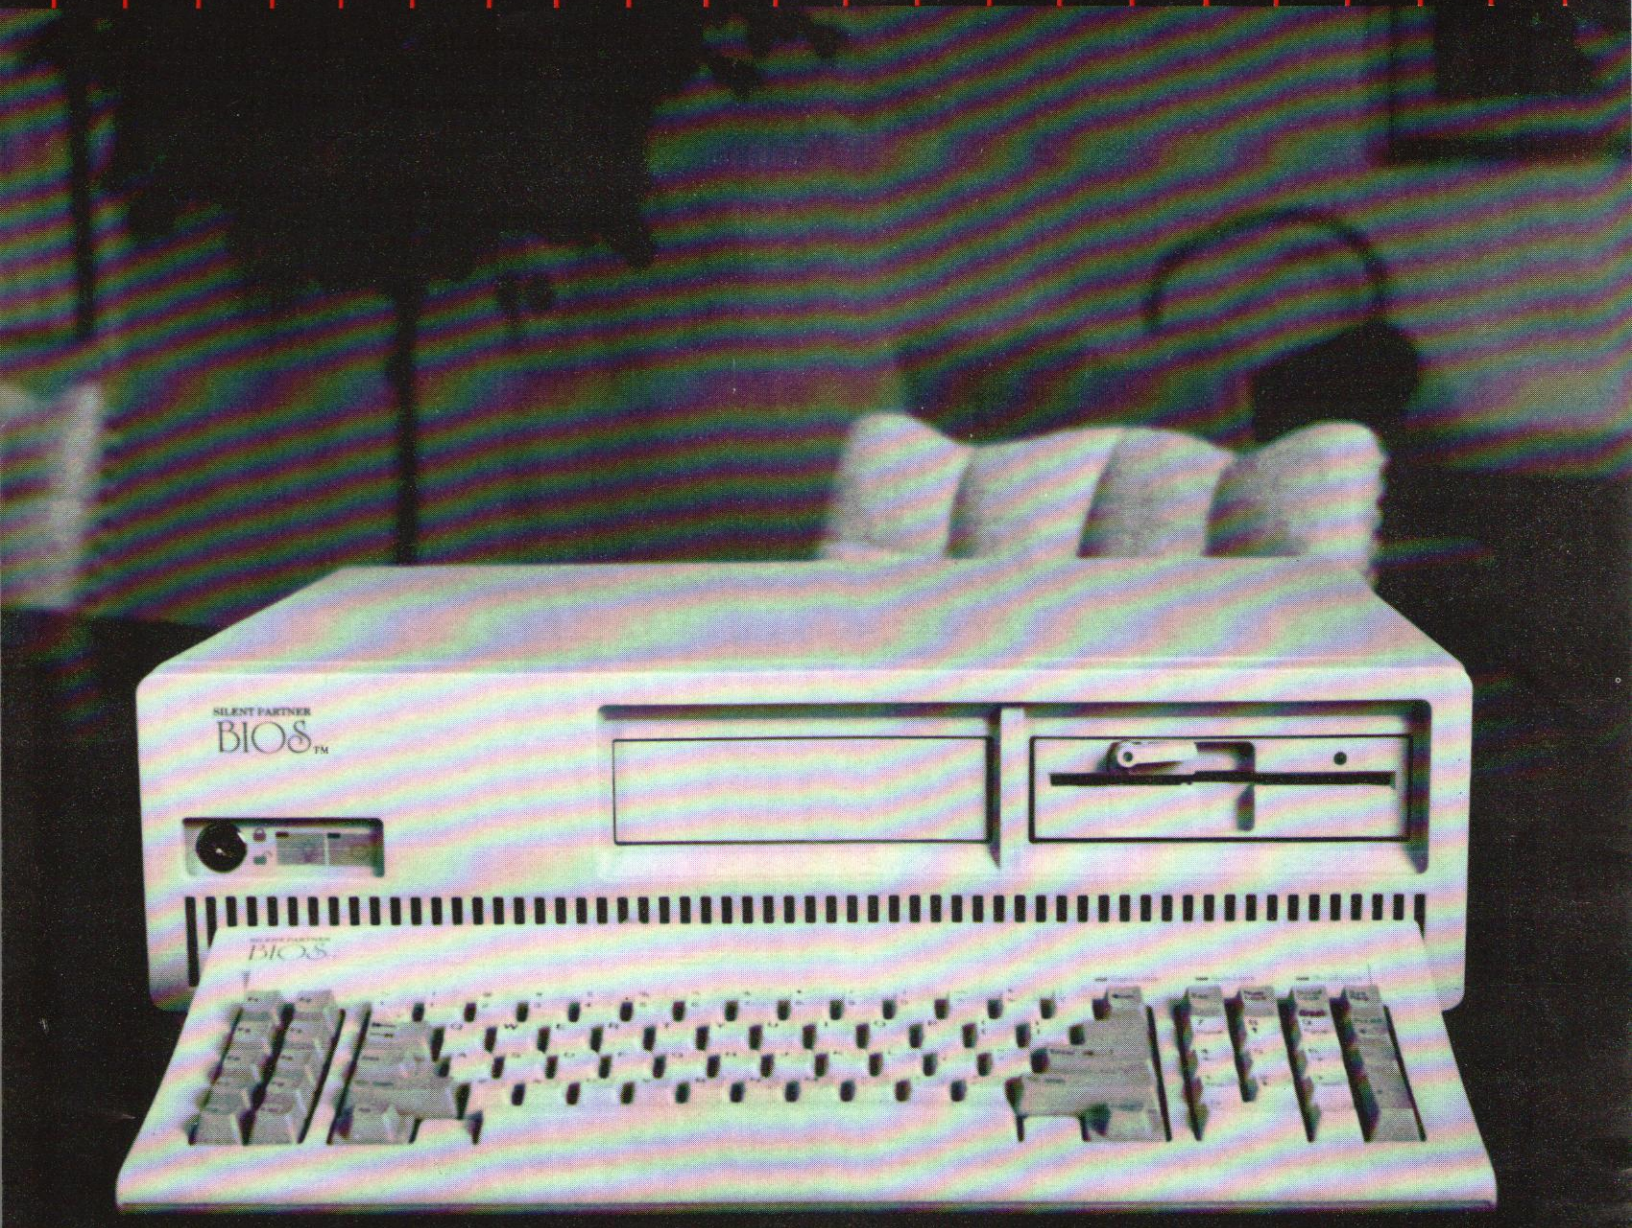
It's a BIOS™

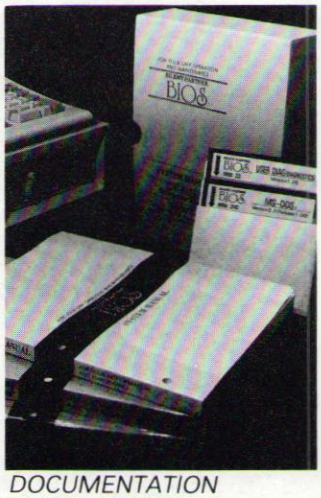


FAST, RELIABLE, GUARANTEED COMPATIBLE

SILENT PARTNER BIOS™

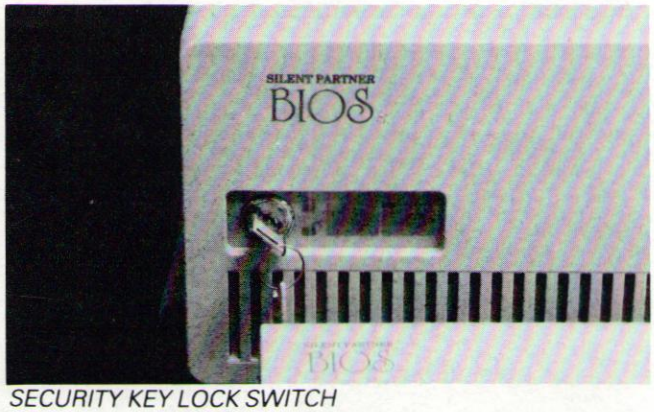
MADE IN JAPAN

84 KEY AT™ STYLE KEYBOARD



DOCUMENTATION AND SOFTWARE

6 OR 8 MHZ SWITCH



SECURITY KEY LOCK SWITCH

Why the BIOS™ is in such demand.

SPEED
At 8 Mhz, the BIOS™ outruns the competition. No wait state operation means the BIOS™ is a fantastic network server and now is Unix System V™ compatible for single or multi-user applications.

RELIABILITY
Fully made in Japan by one of Japan's largest manufacturers, the BIOS™ is reliable and durable beyond compare.

EASY-TO-USE
Over 550 pages of "easy-to-read" documentation come standard with the BIOS™. Included are tutorials, pictures and diagnostics.

COMPATIBILITY GUARANTEED
Fully AT™ compatible, the BIOS™ fits all applications.

ON-SITE SERVICE
A one year parts and labor guarantee is complimented by free 90 days on-site service nationwide. Installation and extended warranties are available.

FEATURES and STANDARD SPECIFICATIONS

- 640KB memory using 120 nanosecond chips
- Intel 80286 processor for true 16 bit operation
- 8 Mhz 0 wait state operation - networking compatible
- 6 Mhz 1 wait state operation - traditional AT™ speed
- Speed selector switch on chassis
- 8 expansion slots for I/O expansion
