

# The 150-font solution.

JetFont SuperSet, by Computer Peripherals, Inc., is going to change the way you think about fonts. Imagine being able to fulfill virtually all of your desktop publishing needs with just two cartridges! That's exactly what JetFont SuperSet has accomplished.

SuperSet contains 150 of the most popular fonts available for the HP LaserJet or Canon laser printer. Simply insert both cartridges and SuperSet does the rest. Not only do the cartridges work interactively, but SuperSet clearly differentiates between similar looking fonts used by different cartridges. And SuperSet always keeps the proper symbol set for each font.

JetFont SuperSet includes the HP equivalents of the A, C, D, E, G, H, J, L, M, N, Q, R, T, W, X, Y and Z cartridges, plus JetFont 12<sup>30</sup>. Font families include Tms Rmn, Helv, Courier, Presentation, Lotica and many others. Plus valuable specialty fonts like bar code and OCR/EAN/UPC.

Two cartridges, 150 fonts, one low price. The JetFont SuperSet gives you all the fonts you'll ever need in one easy-to-use package. And, like all JetWare products, the typography is exceptionally accurate, clean and consistent.

Get the SuperSet. It's a virtual type house on two cartridges!

# Technical Specifications

Don't be fooled by one-cartridge solutions claiming to do everything the SuperSet does! Two cartridges are the only solution to provide 150 fonts without seriously compromising capability:

- More fonts can fit on two cartridges than on one.
- A two-cartridge solution solves character conflicts between "T" and "Z" HP equivalents.
- Tax Line Draw and General Line Draw operate without conflict.
