# FoxBASE+/Mac...

You can create stunning screens just like this with FoxBASE+/Mac—*immediately!*
This actual FoxBASE+/Mac screen photo illustrates the View Window, Command Window, Integrated Graphics, Memo field editing, Trace and Debugging facilities, and the BROWSE feature.

The Fastest, Most Powerful Macintosh Database System

The One Mac Database System That Has It All.

We've combined the blazing speed and programming power of our prize-winning DOS products with the things you love best about your Mac...elegant Mac interface, perfectly integrated graphics, and peerless ease of use.

FoxBASE + /Mac is perfect for novices and the most demanding developers and power users...you'll never run out of steam!

Speed to Burn.

FoxBASE + /Mac gives you the power and performance you expect from Fox. In fact, FoxBASE + /Mac is by far the fastest database system available on the Mac — *up to 200 times faster!*

Vast Program Library.

Because FoxBASE + /Mac is completely compatible with the industry standard dBASE language, there are literally *hundreds of thousands* of programs available which will run without changing a single line of code — immediately, perfectly, no excuses.

And FoxBASE + /Mac lets you use the Mac toolbox... you can create *real* Mac applications.

View Window.

The View Window is the master control panel for FoxBASE + /Mac's graphical, non-programming interface. Use it to open and close files, set up indexes, establish relations, access BROWSE, and even to modify database structures!

BROWSE.

FoxBASE + /Mac's BROWSE feature brings new convenience and power to database display and editing! You're in complete control — BROWSE lets you dynamically adjust the size and order of fields displayed, add or delete records, and split the window to show different database sections side-by-side!

Together, BROWSE and View Windows *eliminate* the need to write programs for common database operations!

Integrated Graphics.

Copy and paste graphs, charts, diagrams and even pictures into your database — instantly! FoxBASE + /Mac gives you the power to display these graphics, or merge them into reports and documents!

Command Window.

FoxBASE + /Mac's Command Window gives both experienced developers and novice users ultra-convenient access to the dBASE command language — just type a command into the Command Window, and it's executed!
System Requirements.

Macintosh II, SE or Plus. One 800K diskette drive and one hard disk or two 800K diskette drives. Supports all Imagewriter and Laserwriter printers.

Join the FoxBASE + /Mac Pack!

Get all the FoxBASE + /Mac facts *now!*

Call (419) 874-0162 for more information about FoxBASE + /Mac. Or visit your local software retailer.

Experience the fastest, most powerful Macintosh database system ever.

FoxBASE+/Mac is part of the award-winning family of products from Fox Software. FoxBASE + has been given the prestigious Editor's Choice award by *PC Magazine*, and scored an impressive 9.2 out of a possible 10 when tested by *InfoWorld*'s Review Board!
