

Tecmar's QualityTape Systems for Business

Your data is the most valuable part of your personal computer. Protect it, insure it, archive it, and manage it with a QualityTape system from Tecmar. The QualityTape line is a complete family of tape solutions: internal and external, 40MB to 125MB capacity, high-performance to economical, for IBM-compatible and Macintosh computers.

No matter what your requirements, what computer you use or plan to buy, we have the right QualityTape system to fill your needs.

For more than 100,000 personal computer users, Tecmar is the quality tape solution.

IBM PS/2-Compatible Tape Systems

Whether you have an economical Model 30 or the most powerful Model 80, there is a QualityTape system for your requirements.

- External—choose between 40, 60, 90, or 125MB capacity. Each external QT system is compatible with the entire PS/2 line
- Internal—for Models 50, 60, 80, the internal QT-40i/PS is easy, efficient, and inexpensive

QuickTurn Quality Service

Tecmar QualityTape systems are manufactured to the highest quality standards and are backed by a two-year warranty. And if you have a problem within the first six months of your warranty, Tecmar will send you a replacement within 48 hours.*

*QIC-60 covered by one-year warranty and is not covered by QuickTurn Quality Service Guarantee.

Ordering Information

Description	Part Number
QT-125e External 125MB Drive 110V	813402
QT-125e External 125MB Drive 220V	813403
QT-125i Internal 125MB Half-height, 5.25-inch Drive	811591
QT-90e External 90MB Drive 110V	813406
QT-90e External 90MB Drive 220V	813407
QT-90i Internal 90MB Half-height, 5.25-inch Drive	811584
QT-60e External 60MB Drive 110V	813410
QT-60e External 60MB Drive 220V	813411
QT-60i Internal 60MB Half-height, 5.25-inch Drive	811594
Host Adapter Kit for QT-125e, 90e and 60e	813281
Micro Channel Host Adapter Kit for QT-125e, 90e and 60e	813280
SYTOS Software Option for QT-125, 90 and 60	811712
SYTOS Software Option for SCO XENIX V System	811715
QT-40e External 40MB Drive 110V	811579
QT-40e External 40MB Drive 220V	811580
QT-40i Internal 40MB Half-height, 5.25-inch Drive	811578
QT-40i/PS Internal 40MB Half-height, 3.5-inch Drive	813286
Floppy Expander for QT-40e	811668
Micro Channel Floppy Controller for QT-40e	813285
QT-Mac40 External 40MB SCSI Drive for Macintosh 110V	811635
QT-Mac40 External 40MB SCSI Drive for Macintosh 220V	811636
QT-Mac40 SCSI Cable Kit (SCSI T-Cable, 50-to-50 pin, 25-to-50 pin and terminator)	811665
Q60H External QIC-60 60MB Drive w/Adapter 110V	811602
Q60H External QIC-60 60MB Drive w/Adapter 220V	811603
Q60AT Internal 60MB Half-height, 5.25-inch Drive	811604
Additional Host Adapter for Q60H	811608

The Power Behind Your PC

Tape Storage Products

High-Performance Tape Systems

QT-125™

QT-90™

QT-60™

Select from 125, 90 and 60MB capacity tape drives in either half-height internal or portable external models.

- Up to 5MB/minute backup/restore speed
- QTOS menu-driven interface software
- Tape interchange between models
- Uses DC600A tape cartridges
- Direct Track Seek quickly accesses files on tape
- Multiple tape capability
- Novell®, IBM®, and 3COM® network compatibility
- SY-TOS™ software option available
- XENIX™ SCO Version V software option available
- Two-year warranty and QuickTurn™ Quality Service

QT-125e, QT-90e and QT-60e (external models).

These external systems use an inexpensive host adapter board installed in your personal computer to attain their high performance. Buying extra host adapters will allow multiple users to share the same tape system. Choose the host adapter suited to your computer:

- QT Host Adapter Kit—compatible with IBM PC XT®, AT®, PS/2™ Model 30 and compatibles
- Micro Channel™ Host Adapter Kit—compatible with PS/2 Models 50, 60, 80

QT-125i, QT-90i and QT-60i

(internal models). Compatible with IBM PC XT, AT and compatibles.

QIC-60™

Tecmar's original tape backup system available in portable external and internal models.

- 60MB capacity
- Uses DC600A tape cartridges
- PICK operating system compatible
- One-year warranty

Q60H (external model).

Compatible with IBM PC XT, AT and compatibles. Additional host adapters may be ordered separately to provide multiple PC backup capability with one drive. Drive includes host adapter.

Q60AT (internal model).

Compatible with IBM AT and compatibles.

Economical Floppy-Interface Tape Systems

QT-40™

Efficient, 40MB floppy-interface drives provide reliable data protection in both portable external and internal models.

- 40MB formatted capacity
- Up to 2.4MB/minute backup/restore speed
- QTOS menu-driven interface software
- Uses DC2000 mini tape cartridges
- Novell, IBM, and 3COM network compatibility
- SY-TOS software option available
- Two-year warranty and QuickTurn Quality Service

QT-40e (external model). Connect directly to an external floppy port, or use an optional floppy adapter for more compatibility and tape-system sharing. Choose:

- Floppy Expander—compatible with IBM PC, XT, AT, PS/2 Model 30 and compatibles
- Micro Channel Floppy Controller—compatible with IBM PS/2 Models 50, 60, 80

QT-40i (internal model). Compatible with IBM XT, AT and compatibles.

QT-40i/PS (internal model for PS/2). This 3.5-inch tape drive mounts directly in one of the drive bays of the PS/2 Model 50, 60, or 80; no cabling required.

High-Performance SCSI Tape System For the Macintosh™

QT-Mac40™

Specifically designed for SCSI-based Macintoshes, this compact, portable unit is compatible with all internal and external hard drives for the Macintosh.

- 38.5MB formatted capacity
- Easy-to-use icon interface software
- High-performance streaming operation (up to 2.5MB/minute)
- Background backup mode allows other programs to run while backup is in progress
- Apple Tape Backup 40SC™ and AppleShare™ compatible
- Two-year warranty and QuickTurn Quality Service

QT-Mac40 (external model). Compatible with all SCSI-based Macintoshes. Its exclusive T-cable design allows the QT-Mac40 to be easily moved between Macintosh systems and shared by many users.

Drive includes 25-to-25 pin SCSI cable; full SCSI cable kit sold separately.

QualityTape™

Tecmar's own DC600A™ and DC2000™-compatible tape cartridges offer the highest quality available. They are recommended for optimal performance on all QualityTape systems.
