

# With us, VGA stands for Very Good Alternative.

You don't have to pay top dollar to get VGA color technology in a monitor.

Not when there's an alternative with the world class quality of Samtron.

Our monitors are made in Korea, by Samsung Electron

Products Refined For  
The International Market

Devices. One of the largest monitor manufacturers in the world. But, while we make monitors in volume, we don't make them in every possible model.

Just the most popular ones, refined for the international market. Like the 14" Samtron VGA color monitor you see on the right.

That keeps the production runs high, the costs low.

It's how we've been the money-saving alternative for smart monitor buyers in the U.S. and around the world since 1978. (Our service is also worldwide.)

And it's why choosing a Samtron VGA monitor is as brilliant as the 256 colors you'll get.
