

THE PRINTER TO BUY WHEN YOU NEED EVERYTHING— INCLUDING A GOOD PRICE.

Join the happy thousands of satisfied users! Introduced to rave reviews from every leading magazine, Fujitsu's value-packed DL3400 is everything you ever wanted from a wide-carriage 24-wire dot matrix printer at a surprisingly affordable price.

Superb Paper-Handling Speed and Quiet Operation.

First, with just a push of a button you can switch between letterhead and continuous form computer paper. The built-in push tractor with paper parking does all the work.

Next, print a fast 288 characters per second, that's a one-page memo in ten seconds or a one-page spreadsheet in twelve.

Finally, print at a quiet 55 dBA. That's quiet enough to let you comfortably carry on a conversation.

Comes Fully Loaded Ready To Go.

The DL3400 gives you crisp graphics and exceptional letter-quality printing. For even more brilliant graphics, a user-installable seven-color option is available.

It has an easy-to-use operator panel that can be pre-

programmed for frequently used settings and it's fully compatible with all of today's popular software packages.

You get the highest reliability rating in the industry: 8,000 hours mean time between failures (MTBF). In plain English, expect years of trouble-free performance.

Easier, faster, quieter than the competition. Ask to see one. We'll prove it. Call 1-800-626-4686 today for more information on this or any of our MVP, "Most Versatile Printer," line of printing solutions, including dot matrix, laser and band. Or, write: Fujitsu America, Computer Products Group, 3055 Orchard Drive, San Jose, CA 95134.
