

Trust the Experts

When it comes to storing your valuable data, don't trust just anyone. Trust all your important information to 3M, the data storage experts.

3M is the world's largest manufacturer of flexible magnetic media — a position we earned for some very good reasons. Our technical expertise and service network is unmatched in the industry. And our worldwide distribution network means

products are available when you need them, where you need them.

But most important of all, 3M products are *reliable*. All products are manufactured under strict specifications for quality control, and backed by the extensive 3M quality guarantee. So no matter which storage medium you choose, you can count on 3M to keep your data safe and ready for use.

3M manufactures a full line of data storage products and accessories including diskettes, computer tape, optical disk cartridges, data cartridge tapes and more. In fact, you'll find we make a data storage product for *all* your needs. So whenever you want maximum security for your information, trust the data storage experts at 3M.
